

Electric Heating Controller (1/3 phase)

- Electric heating controllers intended for control of electric heating coils or radiators. The controllers pulse the whole load on/off and utilise time-proportional triac control.

- Models :

For 1 or 2 phase :-

Supply Voltage : 200...415 VAC, 50/60Hz.
: 16A, 1-phase max. 3.6kw.
: 2-phase max. 6.4kw.

For 3 phase :-

Supply Voltage : 380...415VAC.
Models : TTC25 - 25A, 17kw.
: TTC40 - 40A, 27kw.
: TTC63F - 63A, 43kw.
: TTC80F - 80A, 55kw.
